That day also works for me.

Thank you,
Wenli

Hi Folks, sorry for the delay in getting this meeting set. Since morning of Dec. 15 works for the Water Boards, would Dec. 15 from 9-11am work for DOC? Thanks, David

EXTERNAL:

Sorry for the confusion, but I now understand this Friday 12/4, no longer works for State Water Board. Please provide other suggested times for a meeting, next week perhaps, and send your suggestions to David who will be back in the office tomorrow. Thanks.

Hi David

We never received an appointment, do we need to reschedule?

Hi John and Vincent,

At our last UIC meeting, EPA agreed to provide a table of potential carbon sequestration projects and to update the table for each meeting. Attached is an updated table of projects we are aware of; we've had at least a preliminary discussion with each of these project proponents.

Also, thanks again for the input you all provided on the proposed CES-Mendota project and our discussion last month. I recognize we did not get through all the state's input, so I'd like to schedule a follow-up discussion. I am thinking the week after Thanksgiving would probably work best at this point, so please let me know if Dec 2nd or 4th would work on your end and we can get a meeting on the calendar.

Thanks,
David
